

General Garbage

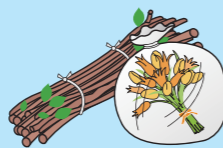

[50cm in length or less]

Kitchen garbage

Non-recyclable paper products

Branches, Trunks, Grass etc
(Brush away the soil, make it under 20cm thick, under 50cm in length)

Leather goods

Wool yarn, Clothes
(except white cotton T-shirts)

Plastic containers and bags

Glass, Tableware, Bottles of
agricultural chemicals or powerful drug

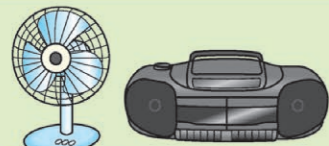

Plastic, Rubber products,
polystyrene foam

- How to properly dispose of General Garbage**
- Drain kitchen garbage well. ■ Remove waste before disposing paper diapers.
 - Different type of general garbage can be combined in the same garbage bag if the total weight is 10kg or less.
 - Wrap broken glass in paper to ensure safe handling and write what is contained in the paper.
 - The feces of pets which are kept at home shall be dried and put in a small bag. Then put the small bag in the "General Garbage" bag to dispose. ■ Grass, Fallen leaves, Flowers, Fruits should be put in the transparent garbage bag.

※ Put out glass and plastic and polystyrene foam that are longer than 50cm as large bulky garbage.
※ About Branches or Trunks which cannot collect as General Garbage, please confirm the section of "Garbages which the city cannot collect."

Large Bulky Garbage

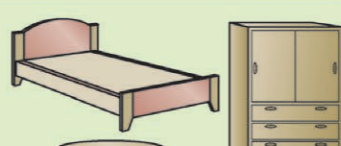

[2 meters in length or less] [Small crushable items] [Recyclable metal products]

Electrical home appliances
(except televisions, air conditioners, refrigerators, freezers, washing machines, cloth dryers, PCs, and home appliances have rechargeable batteries which are difficult to remove small rechargeable batteries.)

Metal products

Furniture

Bicycles, Handcarts

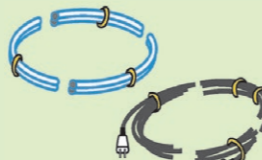

Pots, Flower vases
Flower vases, flower pots and jars
(except tableware)

Except Beverage Cans
Cans of food, confectionery, tea leaves,
powdered milk, etc.

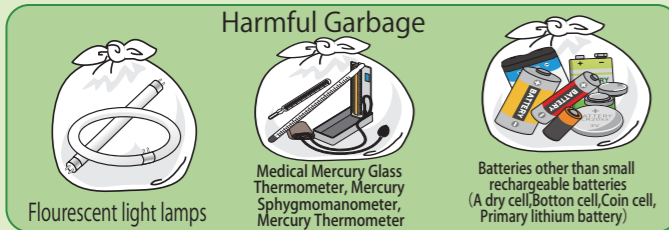

Pillow, stuffed animals, curtain,
futon, carpet, feather product

Long items
Hoses, ropes, wires, cords, etc.

Mirrors

Harmful Garbage

※ Dispose incandescent lamp and LED light bulb as General Garbage.
※ Some items in "Harmful Garbage" and "Dangerous Garbage" will change.

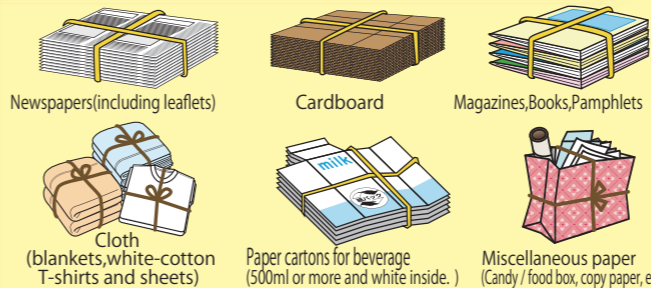

Dangerous Garbage

※ No need to make holes in gas or spray cans. Use up contents completely.

- How to properly dispose of Large Bulky Garbage**
- Electrical home appliances, metal products and cans can be combined in the same transparent garbage bag if the total weight is 10kg or less.
 - If putting garbage (except electrical home appliances, metal products and cans) in a transparent bag, separate them by category.
 - Insulate the terminals of "Small Rechargeable Batteries" and "Mobile Batteries" with tape. (Do not hide recycling marks)
 - Dispose of each Harmful Garbage and Dangerous Garbage in the transparent garbage bag separately.
 - If they are too big and not fit in a garbage bag, put out with a paper such as "Jyudenshiki-Kaden (Rechargeable home appliances)" on it.
 - Fold up futon, curtains, carpets and sheets and tie them up with strings.
 - Long items like hoses, ropes and wires must be 2m or less. Cut them to the proper length if they are too long.
 - Remove fuel and batteries from heaters.
 - We can recycle feather items. When you dispose down-filled quilt, it shall be separately bound to dispose.
 - When you throw away broken glass, please wrap in papers and put in a plastic bag. Also, write 'broken glass' on the plastic bag.

Recyclable Items

[flammable]

- How to put them out**
- Tie up newspapers, magazines, cardboard and cloth with string.
 - Paper cartons: rinse the inside, cut open and dry the carton. (Remove the plastic cap or any plastic piece before disposal.)
 - How to put out "Miscellaneous paper"
 - Fold the paper box flat and bind them with string. Put them in a paper bag and bind them up.
 - Remove non-paper handles (vinyl, etc.) and put out as "general waste".
 - Put them out as general waste if you don't know whether it is general waste or miscellaneous paper.

Recyclable Items

[non,flammable]

- How to put them out**
- After rinsing aluminum and steel cans, you can put them together in the same garbage bag. The screw cap is also okay.
 - Rinse the bottle, remove the screw cap, and separate according to color and type in the colorless garbage bag.
 - Be careful not to break returnable bottles.
 - Oiled bottles and cosmetic bottles are also non-flammable recyclable waste (bottles).
 - Items that cannot be put out as bottles (non-flammable recyclable waste)
 - A bottle containing items other than food, drinks or items applying to body. (Bottles of agricultural chemicals or powerful drug.)
 - Put out glass tableware and heat-resistant glass as general waste because of different materials from bottles.

PET bottles and caps/ White food trays

How to put out

A Plastic bottle with this mark on a bottle or a label must be sorted.

- Peel a label from a bottle and throw the label to general garbage.
- Rinse plastic bottles (PET bottles) and the screw cap, and put them in the transparent bag separately.
- White food trays (both sides are white) must be cleaned with water and collect them in a transparent bag or bind them with a cord.
- If containers exclusive for Plastic bottle, cap or white food tray are installed at waste-collection point, throw specified garbage into each container directly without putting in transparent bag.

The following items can not be collected by the city, therefore, bring them to Sōgō Kankyō Center in Kameyama.

- Waste from business activities. (offices, stores, restaurants, farms including those of side-work farmers, etc.)
